Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Serial Number: 10/017893

Applicant's election the species of figures 1,3 and 4 without traverse has been acknowledged. Upon further reconsideration with new claims 65 and 82, restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-17,20-32,34-37, drawn to a combination of a specific vented container with a specific tray for venting, classified in class 220, subclass 23.88.
- II. Claims 38-43,45-48,50,52-59,61-62,64-82, drawn to a subcombination of a general vented container, classified in class 220, subclass 366.1

The inventions are distinct, each from the other because:

Inventions II and I are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination required the specific tray and vent channel of a container but not a single vent slot for patentability. The subcombination has separate utility such as the claimed vent slot can be used for any content that requires ventilation not with any combination of any tray. See evidenced claims 38,58 and 65.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification and their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Any inquiry concerning this office action will be directed to examiner Joseph Moy, (703) 308-1145.
